Connecting using public IP address

20.51.145.144

Admin username : KeerthanaNeeluru

Port (change) : 3389 [Check access](#)

Just-in-time policy : Unsupported by plan

Most common

Local machine

Native RDP

Connect via native RDP without any additional software needed. Recommended for testing only.

Public IP address (20.51.145.144)

[Select](#)

Native RDP

Connect from your local machine (Windows)

Switch local machine OS

- Configure prerequisites for Native RDP**
Azure needs to configure some features in order to connect to the VM.
 Validating prerequisites before configuration
 Port 3389 access
 Validating access to port 3389 on the virtual machine. [Learn about Just In Time configuration](#)
 Change the port for connecting to this virtual machine on the Connect page of the virtual machine.
 Public IP address: 20.51.145.144
 A public IP address is required to connect via this connection method.
 Validating...
- Open Remote Desktop Connection (on Windows)**
Open Remote Desktop Connection. Or change your local machine operating system to view more instructions. [Learn more](#)
- Download and open the RDP file**
Download and open the RDP file to connect to the virtual machine.
 Username : KeerthanaNeeluru
[Download RDP file](#)
